Preparation Sheet – Mice Droppings Clean Up

1. In the kitchen - Remove items from the lower drawers and cupboard and place them on top of the table, you may cover the items with plastic or sheets.
2. In the pantry – Remove all item on the floor.
3. Move items away from the heater.
4. Remove the clutter and make sure there is enough space for the technician to move around.
Note that if unit is cluttered, Pest101 will not proceed with the clean up.
5. Storage Room – Remove all items inside the storage room if droppings are present, for the technician to do a proper clean up.
6. Make sure that there are no dirty dishes in the sink / countertop.

Reminder: Tenants are not allowed to be inside the unit during the clean up.
